*"From the Seed to the Sowing –
The Story of Christian Science Nursing"*

First Church of Christ, Scientist, Joplin, Missouri

Presenter: Brian Webster, Director of Development for Peace Haven in St. Louis, MO

When: Tuesday, September 12, 6:30 p.m. **Address:** 1501 Connecticut, Joplin, MO 64804

Contact: Terri Heeter, 417.499.9716

Christian Science nursing was part of Mary Baker Eddy's church long before she added the Christian Science Nurse By-Law to the *Manual of The Mother Church* (see Art. VIII, SECT. 31). Its origins and evolution provide insights into Mrs. Eddy's evolving thought about the demand for her church to serve the practical needs of humanity. The addition of this By-Law ensured that Christian Science nursing would always be a pillar of her church organization.

In this talk, Peace Haven provides a brief history of Christian Science nursing:

- How and why Christian Science nursing became part of Mrs. Eddy's vision of Church
- The development of Christian Science care facilities and in-home Christian Science nursing services
- How Christian Science nursing supports the healing mission of our church today
- The abundant resources and services available to Christian Scientists who have a need for Christian Science nursing

Christian Science nursing exists in the hearts and minds of students of Christian Science. This talk highlights the importance of supporting Christian Science nursing as an essential part of Mrs. Eddy's revelation of Church. Please join us!
